

HI, I'M ANNA!

I am a senior graphic designer, who seeks to make people's lives easier. Design can direct, attract, explain, support, encourage...

In my work, I always start from the final goal. Artistic things can be bought at the art gallery. Good design will help you open the door in the right direction, leave your house effortlessly, check the bus schedule easily, request a stop on time and find that art gallery.

If you too believe honest, clear, and well-researched design solutions can make a difference in the world, lets work together!
